MISS THIS MEETING...**

-  What lies ahead for you and your electric bill when deregulation arrives at the end of 2010?
-  Are you aware that some people are predicting a **DRAMATIC** rise in the price of electricity?
-  What do you need to know about deregulation and what you can do now to prepare?
-  Do you want to know what steps PECO plans to take to comply with Act 129 on January 1, 2011?

A representative from PECO, Ted Dorand, the External Affairs Manager, will do a presentation on deregulations, Act 129 and energy-saving tips. After the presentation, he will also answer questions. **This deregulation will affect everyone!**

The Buckingham Township Civic Association would like to request that you remember those less fortunate and bring a non-perishable food item for their food drive.
