## Application for Water Service

All requests for residential water service require that customers with active accounts must pay all past due amounts on current accounts prior to establishing additional service with the Township. A deposit of \$310.00 is required for all account holders reestablishing service after shut off for non-payment, for each premise they request service. After 18 months of satisfactory payment history, the Township will apply deposits, toward water bills as they are billed. All deposits are held without interest.
